

1. Made a github repo "vcs_assignment"
2. Opened terminal and did the following command:
 - mkdir assignment
 - cd assignment
 - vim main.cpp
 - Added main and getSum function
 - g++ -std=c++11 -o main.out main.cpp
 - ./main.out
 - git init
 - git add .
 - git commit -m "first commit"
 - git branch -M main
 - git remote add origin [git@github.com:okaabb/vcs_assignment.git](https://github.com/okaabb/vcs_assignment.git)
 - git push -u origin main
 - git branch first_branch
 - git checkout first_branch
 - vi main.cpp and added average function, commit changes, pushed branch to Github, and repeated steps for second_branch
 - git checkout main
 - git merge first_branch, commit and push
 - git merge second_branch and solved merge conflict, commit and push
